TOP 10 STATE FOR CONGESTION MITIGATION AND AIR QUALITY SPENDING

OVERALL POINTS

31.0 of 100

2013: 36.2 of 100

FEEDBACK

- Adopt a safe passing law with a minimum distance of 3 feet to address bicyclist safety.
- Adopt a vulnerable road user law that increases penalties for a motorist that injures or kills a bicyclist or pedestrian.
- Adopt a statewide Complete Streets policy.
- Adopt performance measures, such as mode shift or a low percentage of exempted projects, to better track and support Complete Streets/ Bike Accommodation Policy compliance.
- The state could spend more federal funding on bicyclists and pedestrians. Adopt project prioritization criteria for federal funds that incentivize bicycle projects and accommodations.
- Dedicate state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks.
- Adopt a statewide bicycle plan that addresses each of the five “Es”, has clear implementation actions, and performance measures to gauge success.
- Adopt performance measures to decrease bicycle fatalities.
- Adopt a mode share goal for biking to encourage the integration of bicycle transportation needs into all transportation and land use policy and project decisions.

The Bicycle Friendly States ranking is based on a comprehensive survey completed by state departments of transportation and state bicycling advocates. It asks comprehensive questions across 5 categories: Legislation and Enforcement, Policies and Programs, Infrastructure and Funding, Education and Encouragement, Evaluation and Planning. The results listed above provide only a snap shot of the full application. They are intended to offer some ideas for further growth in bicycle friendliness.
